

School Safety Plans

The District is committed to providing a safe environment for students, employees and citizens while they are present on school premises or participating in school-sponsored activities. With this goal in mind, a school safety plan shall be developed and followed in each school building in the District.

School safety plans shall be developed with involvement from Board members, administrators, staff, law enforcement and other community agencies, students, parents and other interested parties as deemed appropriate and necessary.

Each school safety plan shall be developed consistent with District policies and legal requirements, and shall include the following:

- Measures to prevent violence, disruptions and unsafe conditions;
- Intervention strategies to help maintain a safe environment, keep problems isolated and deter them from reoccurring; and
- A crisis management plan.

School safety plans shall be reviewed and updated on an annual basis. A current copy of each school safety plan shall be filed in the school and District Office. District employees shall receive a copy of the school safety plan for their assigned school. Staff inservice training may be provided.

The district administrator or designee shall provide annual reports to the Board regarding school safety plans, needs and issues.
