

SCHOOL BOARD OF JOHNSON CREEK
Sites and Facilities Meeting Minutes
Thursday, October 12, 2006
District Office

Call to Order: The meeting was called to order by Chair Patricia Hying.

Roll Call of Attendance: Board members present were Patricia Hying, June McCaffery. Also present were District Administrator Mike Garvey and Jr./Sr. High Principal Eric Ranzen

Verification of Public Notice Pursuant to s. 19.84(1) Wis. Statutes: Proper meeting notice was verified.

Moved by McCaffery/Hying the agenda be adopted. Motion carried.

Mr. Ranzen presented information from the National School Safety Center. He informed the committee that the administrative team and staff representatives worked on a safety/crisis plan last year and a draft will be going to the administrative team in the next few weeks.

The committee discussed short-term safety precautions. All outside doors except the upstairs main entrance doors will be locked. The guidance entrance will be unlocked for lunch. Mr. Ranzen will begin recruiting student greeters to be in the hall during classes. The committee brainstormed ideas for long-term building improvements.

The committee is recommending to the Board that an addition be placed on the high school building which would replace the portable classrooms by filling the entire space south of the FACE room and adjacent to the Spanish room and IMC. Classrooms and office space would be placed in the addition which would allow for better building security. Dr. Garvey will seek out students from the CAD class to do some preliminary drawings.

There was also discussion of an additional gym and cafeteria/commons being placed between the high school and the elementary school.

These ideas will be presented to the Board as concepts before detailed plans are developed.

Dr. Garvey will talk with Mrs. Hombsch regarding an update on the playground access.

Moved by McCaffery/Hying to adjourn the meeting.

Submitted by:

Dr. Michael Garvey
District Administrator
