

Policy Development

The Board will adopt policies to guide the actions of those to whom it delegates authority. These policies will be recorded in writing and organized according to a standard policy classification system.

In formulating policies, the Board will adopt general principles and statements of intent. The District Administrator will, when necessary or when directed by the Board, prepare written regulations to ensure the implementation of Board policy.

The Policy Committee will recommend policies for adoption, revision, or deletion of existing policies. Policies and/or revisions may be proposed by the administration, any member of the Board, by lay group or organization, or by any citizen to the Policy Committee. The Policy Committee has the discretion to act upon the proposal or take it to the Board for their input and direction. Recommended policies will not be formally acted on by the full Board until the next regular meeting following the presentation of such policy to allow time for review and possible change.

The Board will reappraise its policies periodically in view of the changing needs of the community and schools.
