

### **Gifted and Talented Programs**

The School District of Johnson Creek is committed to the development of each student's social, emotional and intellectual potential. In fulfilling this commitment, students shall be provided with opportunities to be educated in a manner in which their talents may be expanded and developed.

Traditionally gifted and talented students have been defined as those students who excel or have the potential to excel in one or more of the following areas of human endeavor: intellectual, academic, creative, artistic, leadership and kinesthetic.

The district believes that all students learn differently. Therefore, the district will provide for these differences through differentiated programs and procedures appropriate to the unique needs of these students.
