

Minimum Class Size Standards

It is the intent of the Board of Education to arrange for class sizes that will provide effective instruction for students and efficient use of faculty.

It shall be the policy of the school district to require that high school classes be scheduled in a manner to insure maximum learning experiences. However, it is understood that the nature of certain high school courses, the size and availability of facilities, equipment and contractual agreements may in some instances govern the class offerings and the number enrolled in classes.

The district administrator will inform the Board of Education of any classes with less than ten (10) students enrolled.
