

Student Discipline

Disciplinary measures shall be maintained in the district. All school personnel shall insure that proper student conduct is maintained in classrooms, in the halls, on school premises, on school buses, on scheduled field trips and during school-sponsored activities.

Disciplinary measures shall take into account the age and maturity of the student and the seriousness of the infraction. Effort should be made to administer discipline in a manner that holds the student responsible for following school rules and yet maintains the dignity of the student.

When a staff member is unable to adequately handle a behavior situation alone, he/she should contact the building principal immediately.

The building principal shall develop appropriate rules to promote desirable student behavior and discipline.
