

Items Sold to Athletic Team Members

It is the philosophy of the Board of Education that participation in school activities should be affordable for all students. Annually, the Board of Education sets fees which are assessed to each participant in a sport. This should be the expected cost of participation in each sport with the exception of personal items such as hats, shoes, undergarments and football girdles.

NOTE: Not all sports require these personal items. They are listed as an illustration of the type of item—items that for hygiene reasons are not passed on to others.

- Team members will not be required to purchase any mandatory uniform parts with the exception of the listed personal items.
- It is expected that the uniforms provided by the District will be the uniforms worn by the team while competing.
- Athletic Team sales of optional clothing items must be pre-approved by the District Administrator and must follow the purchasing guidelines of the District. Sales to fund special event/purposes (fundraising) may also be granted by the District Administrator.
